

I first came to the Guyana Legal Aid Clinic in August 2010 for help in a criminal matter. A friend had recommended legal aid to me.

When I came to the clinic I was amazed at how cheap it was. I felt so relieved that I would not have to pay hundreds of thousands of dollars to see a lawyer. I was under so much stress due to my situation and it was then that I thought I might actually be able to get through it.

When I had an interview with my lawyer, I was very worried. I was feeling so negative and had so many doubts as to what was going to happen to me. But after my lawyer spoke with me, it was like everything turned around. He filled me with confidence and told me that everything was going to be okay.

Although my matter took many months to get through the court, in the end it was dismissed. My lawyer was dedicated and came with me to many court appearances and when it finally came time, he fought and argued to the end. He could not have done better for me.

Now that my matter is over I have been able to concentrate on my life again. I am working in a job in my field which I am happy with, and I am enjoying spending time with my family. We had so much stress and worry and now it is all gone.

Me and my family are beyond happy with my experience at the Guyana Legal Aid Clinic. I can't thank my lawyer enough and am so grateful for the help I got.
